# Money Management Rubric

**Name:** _____ **Date:** _____

**Teacher:** _____

**LESSON GOAL** Make a simple plan to stretch this month's money, protect it, and know where to ask for help.

**ESSENTIAL QUESTION(S)**
Where does my money come from, and what can each kind pay for?
How can I keep more of the money I have?
How do I protect my money, and who can I ask for help?

**STUDENT EXPECTATIONS**

1. Read a pay stub and sort costs into what cash pays for and what SNAP pays for.
2. Make a plan to save a little before you spend.
3. Find money leaks and bill savings, and figure out what they cost in a year.
4. Track a week of money in and money out, and use two ways to stretch it at the store.
5. Recognize buying pressure and scam warning signs, and know when to walk away.
6. Choose a smart response to a real-life money problem.
7. Choose one next step for this week, and know where to ask for help.

| Category | Exceeding 10 points | Meeting 8 points | Approaching 5 points | Emerging 2 points | Total |
|---|---|---|---|---|---|
| **Know and Plan Your Money:** Read a sample pay stub and sort costs into cash or SNAP. Make a save-first plan for Jess in the Cushion Challenge. | Finds take-home pay and sorts every cost correctly. Gives a clear reason for each save-first choice. | Finds take-home pay and sorts most costs correctly. Gives a reason for most save-first choices. | Finds take-home pay or sorts costs only with help. Gives few reasons for save-first choices. | Does not find take-home pay or sort costs. Takes little or no part in the save-first plan. | |
| **Keep More of Your Money:** Find money leaks and bill savings and figure their yearly cost. Track a sample week of money in and out, and name two ways to stretch it at the store. | Finds two or more leaks or savings with correct yearly math. Tracks the whole week and names two store tactics. | Finds two leaks or savings with mostly correct math. Tracks most of the week and names two store tactics. | Finds one leak or saving, or the math has errors. Tracks part of the week or names one store tactic. | Does not find a leak or complete the math. Does not track the week or name a store tactic. | |
| **Spend and Protect Your Money:** Spot buying pressure, predatory offers, and scam warning signs in sample ads, offers, and messages. | Labels every example correctly and explains each warning sign. | Labels most examples correctly and explains some warning signs. | Labels some examples correctly. Explanations are unclear. | Labels few or no examples correctly. | |
| **Real-Life Money Challenge:** Work with a group on a real-life money challenge card and choose a response using tools from the lesson. | Adds strong ideas to the group. The response uses two or more lesson tools and explains why. | Adds ideas to the group. The response uses one lesson tool and explains why. | Adds a few ideas with prompting. The response links only loosely to lesson tools. | Does not take part, or the response does not use any lesson tool. | |
| **Independent Application:** Complete My Money Plan, choose one first step for this week, and name one place to ask for help. Amounts are optional. | Fills in every part of the plan, chooses a clear first step, and names a place to ask for help. | Fills in most of the plan, chooses a first step, and names a place to ask for help. | Fills in some of the plan. The first step or the place to ask is missing or unclear. | Fills in little or none of the plan. | |
| **Directions:** Combine subtotals from each row ● Multiply by 2 ● The result is the final score. | | | | | **FINAL SCORE** |
| **Example**: Combine subtotals from each row = _____ multiply by 2 = _____ Final Score | | | | | _____ |
